

Clarks Creek Coldwater Conservation Public Meeting Notice

You are invited to attend our public meeting about the recently completed Coldwater Conservation Plan for Clarks Creek!

When: Wednesday, February 29th, 2012 at 7 p.m.

Where: The Dauphin County Agriculture and Natural Resources Center at 1451 Peters Mountain Rd., Dauphin, PA.

We'll discuss water quality conditions within the watershed and recommendations for future protection and enhancement of the Clarks Creek Watershed. You can help by providing us with feedback!

Questions: Contact Megan Blackmon at (717)921-8100 or mblackmon@dauphinc.org.

Background

Clarks Creek is a High Quality-Coldwater Fishery, indicating a healthy aquatic community. The Clarks Creek Watershed provides wildlife habitat, drinking water, and opportunities for fishing, hunting, and hiking.

What is a Coldwater Conservation Plan?

A report concerning detailed assessments of water quality, biological communities, and physical habitat in an effort to protect the cold water resources with public support.
